Objective

My objective is to obtain a frontend web developer position in a dynamic and growing organization where I can leverage my technical skills and creativity to contribute to the development of innovative and user-friendly websites and web applications.

Skills

- Proficient in HTML, CSS, and JavaScript.
- Familiarity with responsive web design and mobile-first development.
- Experience with version control systems, such as Git.
- Strong problem-solving and analytical skills.
- Excellent attention to detail and ability to work in a team environment.
- I have excellent expertise and vast experience with React, allowing me to design sturdy and efficient online applications utilizing this technology.
- Good communication and time-management skills.

Technologies

- React.JS
- TypeScript
- NodeJS
- Git
- API
- Ruby On Rails

Projects

Movie Box

Developed a highly engaging movie discovery web app using React, allowing users to effortlessly search for movies, explore detailed information, and curate personalized favorite lists.

- The app saw a 20% increase in user engagement thanks to its intuitive interface and AI-powered recommendation engine, built using state management with Redux.

Drag-and-Drop Image Gallery

Built a dynamic and engaging image gallery with user authentication.

- Leveraging drag-and-drop functionality, empowered users to personalize their experience by intuitively rearranging images, leading to increased engagement and satisfaction.

Experience

Junior Frontend Developer

Hali

(October 2023 - December 2023)

At Hali, I wasn't just coding interfaces, I was building confidence. As a Junior Front-End Developer, I played a key role in crafting the platform that empowers job seekers with interactive interview preparation tools. I designed and developed user-friendly features like pre-recorded Q&A sections with timers, ensuring a realistic and impactful practice experience. Through my work, I helped individuals across industries hone their interview skills and land their dream jobs, contributing directly to Hali's mission of unlocking career potential.

Junior Frontend Developer

Data Nexi

(April 2023 - July 2023)

As a Junior Front-End Developer at Data Nexi, I played a crucial role in making affordable electricity accessible to all Nigerians. I focused on crafting intuitive and user-friendly designs for both our website and app, ensuring seamless navigation and self-sufficiency for all users. This meant translating complex features into clean and functional interfaces, prioritizing usability and accessibility to bridge the digital divide and empower communities across the nation.

Junior Frontend Developer

Bambi

(August 2022 - December 2022)

At Bambi, I wasn't just building interfaces, I was building financial futures. As a Front-End Developer, I designed and developed user-friendly and intuitive interfaces for our innovative savings platform. This meant translating complex investment and financial concepts into accessible and engaging experiences, empowering users to confidently save for their children's education, retirement, or other important goals. Through my focus on seamless interaction and clear visualizations, I played a crucial role in ensuring users could easily track their progress, make informed decisions, and ultimately grow their wealth within the

Bambi ecosystem. My work directly contributed to making savings profitable and attainable, impacting numerous families and individuals on their financial journeys

Frontend Web Development Intern

Hire Magic

(September 2022 - December 2022)

My passion for user-centric design found its purpose at Hire Magic. As a front-end developer, I tackled the challenge of creating an engaging and effective interview preparation platform. I designed and developed key interfaces, focusing on intuitive navigation, time-bound question sets, and seamless video recording functionalities. My work directly contributed to improved user engagement and positive feedback, solidifying Hire Magic's position as a valuable tool for interview preparation.

Education

University Of Ilorin

August 2018 – November 2023

Bachelor Of Marketing
