Objective

My objective is to obtain a frontend web developer position in a dynamic and growing organization where I can leverage my technical skills and creativity to contribute to the development of innovative and user-friendly websites and web applications.

Skills

- Proficient in HTML, CSS, and JavaScript
- Familiarity with responsive web design and mobile-first development
- Experience with version control systems, such as Git
- Strong problem-solving and analytical skills
- Excellent attention to detail and ability to work in a team environment
- I have excellent expertise and vast experience with React, allowing me to design sturdy and efficient online applications utilizing this technology.
- Good communication and time-management skills

Technologies

- React.JS
- Bootstrap
- Tailwind
- Ruby On Rails

Projects

- Created a movie discovery web application utilizing React, enabling users to search for movies, access detailed information, and save favorites.

- Created a fully functional and responsive image gallery allowing users to login and authenticated users to seamlessly rearrange images through Drag-and-Drop for an improved user interface.

- Designed and developed a responsive website for a local business using HTML, CSS, and JavaScript.

- Developed a Basketball Score Counter Using HTML, CSS and Javascript.

- Developed a Poker Game using HTML, CSS and Javascript.

Experience

Frontend Web Development Intern

Side Hustle

(August 2022 - October 2022)

- Worked on several projects, including redesigning a website, creating a landing page, and implementing new features using HTML, CSS, and JavaScript
- Assisted with testing and debugging of code
- Collaborated with designers, developers, and other stakeholders to ensure that projects met client requirements

Frontend Web Development Intern

Hire Magic

(September 2022 - December 2022)

- Developed and contributed to multiple projects, showcasing expertise in redesigning a website, creating captivating landing pages, and implementing innovative features using a combination of HTML, CSS, and JavaScript.
- Played a vital role in the testing and debugging processes, ensuring the delivery of high-quality code and optimal user experiences.
- Fostered effective teamwork by actively collaborating with talented designers, developers, and stakeholders, collectively striving to meet and exceed client requirements and project objectives.

Frontend Web Development Intern

DataNexi

(December 2022 - Present)

- Demonstrated proficiency in frontend development through active involvement in various projects, focusing on website redesign, captivating landing page creation, and innovative feature implementation using HTML, CSS, and JavaScript.

- By actively participating in the testing and debugging processes, I was able to ensure the delivery of high-quality code and ideal user experiences.

- By cooperating with a strong team of designer, developers and stakeholders, I was able to foster successful teamwork while exceeding clients needs and meeting project objectives.

Education

University Of Ilorin

August 2018 - Present

Bachelor Of Marketing
